

INFOWARS MISDIRECTS AGAIN

by Miles Mathis

First published June 28, 2022

This one is really bad and obvious or I wouldn't have devoted this short paper to it. These alternative websites are misdirecting all the time, but this one really stood out.

Their poll this week asks

What's The Democrats' Most Egregious Enterprise Heading Into Midterms?

January 6 committee 27%

Framing SCOTUS as "illegitimate" 23%

Ukraine debacle 10%

Grooming kids with LGBT propaganda 40%

Total: 2,809

What's missing there? Only the most important thing:

Pushing vaccines and killing millions of people.

You will say that both parties have done that, which is true, but there was no vaccine until the last month of Trump's term, so almost everyone that has been killed or injured by the vaccines was targeted under the Biden administration. But regardless of how you feel about that, this poll still attempts to get eyes off the vaccines. Abortion and Ukraine were manufactured expressly to get eyes off the vaccine genocide, and that is a large part of the Jan. 6 committee as well. It is the central long-term story of our time, like 911 was twenty years ago, though even bigger. It is the tocsin of the Revolution, and they know that. So stay focused.

Also remember that the current vaccine crime against humanity tells us that *all* previous pushing of vaccines has been a conjob and crime against humanity. We don't have to wonder anymore what the status of the polio vaccine was, since now we know. The same families were involved from the beginning, which tells us vaccines were a hoax from the get-go, the con just getting bigger and more obvious over the decades. Which means you shouldn't allow your babies to be vaccinated at all. You shouldn't allow your pets to be vaccinated at all, ever. I haven't, and my cats are much healthier than other people's cats.

Which means you will probably have to give birth at home, and give up on hospitals altogether. I wouldn't be caught dead in a hospital, since that is what they are now: death traps. And the maternity wards are among the worst. They shoot up newborns with toxins and cut their feet and genitals and slap them around, and then present you with a big bill for the privilege. It is beyond barbaric. You should protect your children from vaccines and the State like you would any other home invaders or murderers. Otherwise you are going to continue to have your lives shortened, ruined, or ended by

autism, lupus and other auto-immune disorders, heart problems, severe allergies, thyroid/liver/kidney damage, or a host of other easily preventable diseases. Preventable by just refusing to go along with the current regimen of death and misery to the middle class.

By the way, in the latest clown-world theater incident, the Senate Sgt-at-Arms allegedly died just hours before taking the stand in the Jan. 6 hearings. What an amazing coincidence! So that death was faked. They probably read his notes and realized he was about to say something real, so they faked his death and rushed him down to Merida or somewhere to cool his heels. Or maybe they sent him to Epstein's private island on the same jet with Ghislaine Maxwell.
