

Nick Bougas has Died

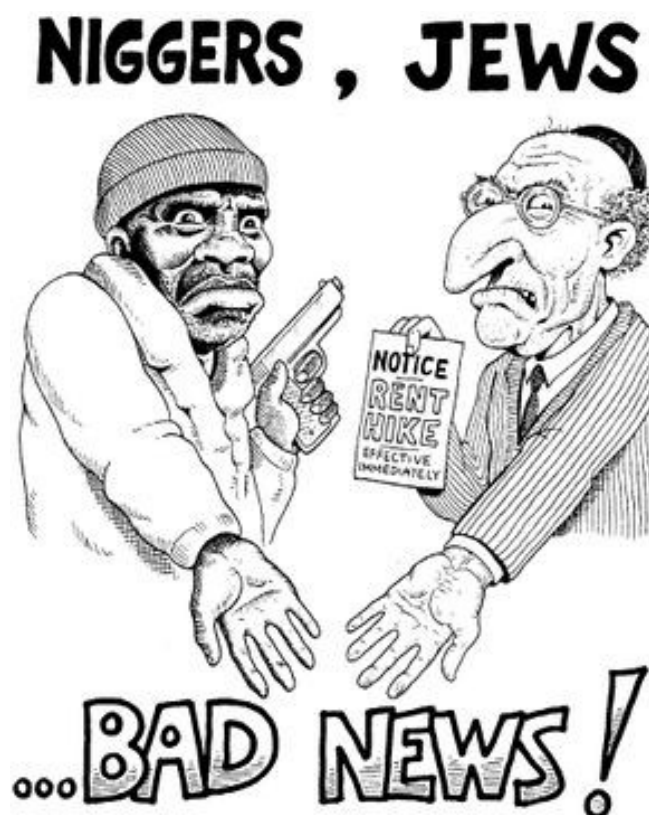

Such a loss to humanity

August 31, 2026

We expected such great things from him due to that highschool yearbook photo, but it wasn't meant to be.

Yeah, I don't care for him, to put it nicely, but not for the usual reasons. I have a different reading or I wouldn't be here.

I wish I could have outed him while he was still alive, but until my readers prompted me today I had never heard of him. One said his Wiki page was one long red flag, and it is. So let's go down it, shall we?

He died in Cumming, Georgia. [Cumming=Comnene=Cohen](#). Don't believe me? Don't believe it ties in here. Keep reading.

Bougas, aka A. Wyatt Mann (a white man), is known for being a virulent anti-Semite and an all-round nasty person, collecting murderers' autographs and such things, but it was all an act. He is the one that drew the famous Grabbler cartoon of the Jew, also known as the Happy Merchant. That is the only thing I had seen from him, but I got to it very late through looking briefly at Owen Benjamin's stuff several years ago. Benjamin is doing the same thing, but on a less abrasive level. But Benjamin is being pushed hard again recently, for reasons unknown to me, after a lull, so he may hit new heights. Who can say? I saw that he is now paralleling me on Youtube, but I assume he is doing it to covertly blackwash me somehow.

Anyway, we know Bougas' schtick was an act since, as it turns out, **he is Jewish**. Of course. From [Buzzfeed](#):

While Bougas did not respond to emails and phone calls from BuzzFeed News asking for comment, Adam Parfrey, the writer of the "F%cking Andrea Dworkin" *Answer Me!* article, confirmed to BuzzFeed News that Bougas is indeed A. Wyatt Mann. According to Parfrey, who is half-Jewish, Bougas openly discussed the cartoons, but it never caused problems between them.

Parfrey's mother was an Ellovich. That name was originally Ben Eli, being a family of prominent rabbis from Romania. Parfrey's father was the well-known actor Sydney Woodrow Parfrey, who you may remember from Mayberry. They are still pretending he wasn't Jewish, though he was. Supposedly an orphan who attended the New School in New York and became a famous actor, as you do. So the white supremacist articles Bougas was illustrating were written by a cloaked Jew. Who would have guessed? Never seen that before, have we? Well, yes, we have seen it every effing time. Every famous and promoted far right thing we have ever researched has turned out to be a CIA front, and that is even being admitted now, with the SPLC being prosecuted by the Justice Department for faking its own opposition of fake neo-Nazis. They don't admit yet that the CIA had anything to do with it, but it's all the same. Whatever three or four letters these people are existing beneath, they are G-men, funded by the same people. Are the founders and heads of the SPLC Jewish? You bet!

This allows to finally out the notorious newspaper *WAR*, White Aryan Resistance, as just another Jewish front. Which means Thomas Metzger, real name Thomas **Byron Linton**, alleged Grand Dragon of the KKK, was also a cloaked Jew. Proving again the KKK was also an Intelligence creation and front. [I have proved that before](#) (p. 9), but this reproves it. Everyone should have known that from the beginning, just from the names. Linton's mother was a **Rickel**, Jewish. Think of Don Rickles, Jewish. Linton's wife is given as Kathleen Murphy, but that is also a fudge, since she wasn't a Murphy. [Her father was Gerald LaRue](#) and his mother was Ella **Bloomfield**, Jewish. The LaRues were also [Dodges](#), [Schaffers](#), [Casselmans](#), [Walters](#), and [Saueressigs](#), linking them to Jewish/German nobility. Also the surname **Asmus**, which means serpent, and is of course Phoenician. Metzger is also a Jewish name, so this guy wasn't hiding very well. He relied on his audience being very ignorant.

Given all that, we should look for Linton in the peerage. Thomas Linton isn't there, but my guess is he is linked to these Lintons. We do indeed find peerage Lintons in the US, see Alonzo Linton of Minneapolis, whose daughter married a **Baring-Gould**. We also find peerage Lintons in Cleveland and Pennsylvania. So his middle name Byron may also peerage, linking him the Noels and Byrons, like Lord Byron.

A gathering of Jewish spooks. Note the girl in the middle named Felina Byron. Indicating she is related to Linton and that Byron is a surname, not a given name. Nicholas Schreck is Anton Lavey's son-in-law, Zeena being Zeena LaVey, or Zeena Levy. Wikipedia has a page for him, admitting his name is not Nicholas Schreck but giving no real name. Best guess? Cohen.

That photo was published with Linton's death notice, and it was tagged, "Metzger, sued by SPLC, dies

in California". So, the SPLC comes up again. Just a coincidence, right? Well, no, since Metzger was one of the ones they are talking about when they say the SPLC manufactured their own opposition. Except that, the SPLC didn't manufacture Metzger or any of the rest. *Both* the SPLC and Metzger were manufactured by CIA as part of Operation Chaos. Both were puppets of the same puppetmasters.

But back to Nick Bougas. We don't have to use Parfrey to prove he was Jewish, we can look him up at FastPeopleSearch, where we find he isn't related to anyone named Bougas, which is kind of curious you have to admit. Forty-five relatives listed and not one Bougas. Indicating that name is also fake. But we do get a lot of Mocks, Fishers and Cannons, plus VonKurzbach, Minskey and Rahn, which is very suggestive. He may have been born Nicholas Mock or Monckton. Another guess would be Nicholas Boughey, since the Bougheys are baronets listed in the peerage related to the Moncktons, Nixons, Fentons, Greys and Fletchers. The Bougheys were originally Fletchers.

Also see Nazi general Walther von Seydlitz-Kurzbach, a commander at the Battle of Stalingrad. You will say he was a Nazi, but that doesn't mean what you think it does. Like the rest of the Nazi officers, he was actually a cloaked Jew from noble lines. Don't believe me? [See the book by Jewish historian and author Bryan Rigg](#), where he admits many of the top officers, including field marshals and generals, were Jewish. And he actually under-reports the number, since I have proven many more. The Seydlitzes are Freiherrns (Barons) listed in the British peerage back to the 1300s, see also Prussian Lt. General Wilhelm Friedrich von Seydlitz, active in the Seven Years War.

The Kurzbachs are also Trachenbergs, related back to the 1500s to Zborowskis, the dukes von Liegnitz, the von Mecklenbergs, and the von Promnitzes.

We know Walther von Seydlitz-Kurzbach was another Jewish actor since his years after the war make no sense, like the others I have outed. He wasn't tried at Nuremberg, being mysteriously ignored even by the Russians, but five years later he was allegedly tried by the Russians and sentenced to 25 years. However he was out in four (actually was out immediately, since he was never in) and returned to West Germany, where he continued to skate. The Allies allegedly had a death penalty out on him, but that was mysteriously nullified in 1955 when he returned, and in 1996 he was issued a posthumous pardon by Russia. What?

So let's track the Kurzbachs related to Bougas. They go back to an Elmar Von Kurzbach of Florida, died age 102. We find them linked to Cohens [here](#), the obit of Gary Cohen Arms, which lists this Elmar von Kurzbach. Not only confirms the name Kurzbach is Jewish, it link Bougas to Cohens. Shocker, eh?

The name Minskey/Minsky is also Jewish, of course. See Marvin Minsky, one of the fathers of AI, who they admit was Jewish. A Harvard Fellow, like Chomsky.

Bougas promoted as real [Charles Manson](#), Anton Lavey, [Henry Lee Lucas](#), John Wayne Gacy, and Kenneth Bianchi, proving again they are all fake. But we already knew that.
