

Today's Fakes

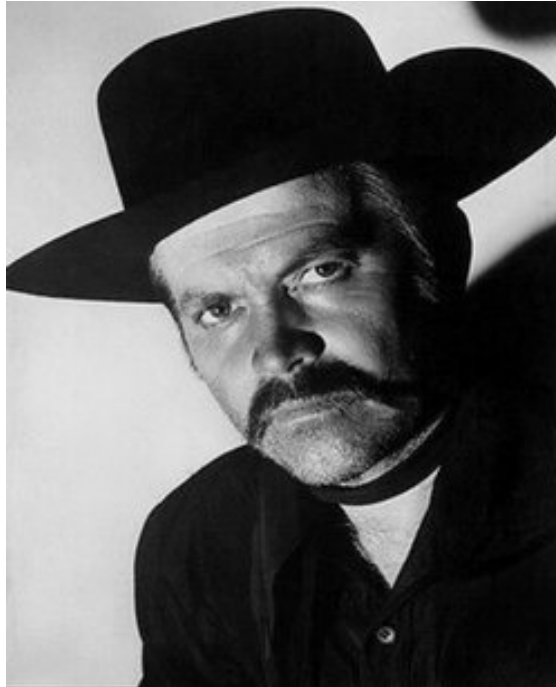

by Miles Mathis

August 9, 2025

Yeah, they have new ones every day now. Today is the anniversary of the Tate murders, and yesterday was 8/8.

The first we will study is the **Devil's Den** fake double murder in Arkansas, where Andrew McCann, above, allegedly killed a couple in front of their children on a hike for no reason, and was found a few days later in a barbershop. Of course the location Devil's Den is way too on-the-nose. It is like being murdered in Murder Valley. We are told the couple, Clinton and Cristen Brink, were from Pea Ridge, AR, but a people search does not confirm that. Both Radaris and Instantcheckmate have no locations in Arkansas for either of them, since they are currently residing in Miles City, MT. They have also lived in Bakersfield, San Bernardino, and Austin, as well as South Dakota and New Jersey. So probably actors.

Clinton has two aliases: Clinton Drink and Clinton Bank. How many aliases do you have? Radaris does not link Clinton and Cristen, though Instantcheckmate lists her as Cristen Trent. She apparently went to UC Santa Barbara, since she is listed in the correct time frame (2003-4) as having two volleyball records. Her mother is listed as Catalina Alvarez Trent, and she is also related to Ojalas, but that isn't Hispanic it is Finnish. . . *wham bam record scratch*. . .

There was a famous Hollywood guy named [Arvo Ojala](#), so I did a simultaneous search on him and these Ojalas of Bakersfield related to Cristen Brink. Guess what? She is closely related to him, being from the same family. She is related to a John Ojala of Bakersfield and La Quinta, and Arvo Ojala's grandson is named. . . Jon Ojala. Except that it is the same guy, since Jon Ojala is the same age, 72, and also has La Quinta on his list and is aka John Ojala. **So this actress in Arkansas is only three degrees of separation away from Sheriff Matt Dillon of *Gunsmoke*.** Just a coincidence, I'm sure.

We find similar problems with Andrew James McGann, 28, of Springdale, AR. People searches pull up no one of that age in Arkansas or nationwide. The nearest is a guy, 32, from Laurel, MT. So a neighbor of the Brinks in Montana, I guess.

And as usual, the story makes no sense. If you are going to murder people for sport on a hiking trail, you aren't going to choose a couple with two kids. And if you do you are going to kill the kids as well. They would be easy to catch, so why let them go? It is just asking to get caught. This idiot also allegedly managed to get injured and leave his own blood at the scene, then bled in his car and didn't clean it up, got his car on the park camera and didn't ditch it later, and then appeared in public within a few days . . . *with the car*. Let me guess: he also still had on the bloody clothes? That is they way they usually tell the story, see Joran van der Sloot in the [Natalee Holloway fake case](#).

Plus, I remind you he was nabbed **in a barbershop** four days after the murder. He couldn't wait a little longer for a hair cut, or drive a bit further away, like maybe in the next state? I go months between haircuts, but this double murderer just had to have a haircut, and couldn't possibly do it himself?

Then we have that problem. Do you see it? Take your time. He was allegedly arrested in that barber's cape and wore it out of the shop. So I guess we are supposed to believe they also took his mugshot in it. Makes sense, right? Why take off a barber's cape, well, ever? Wear it to jail, wear it to trial, wear it to the electric chair, why not? But does he have curly hair or straight hair? It can't be both. Proving that one (or both) of those photos is faked. I will just tell you: it is the same face in both. It isn't two photos, it is one photo of him jacked with twice. The hair is fake in *both* photos, as is the frock. He has just been pasted into both. And what's with the "speed limit 30" sign? Was the speed limit 30 on this mountain walking trail? No, I guess they needed the 3 in there to go with a second three somewhere else, maybe in the signature of the police artist. So that we could have the 33.

So that one is done.

The other obvious fake is the 8/8 shooting spree at a CDC headquarters in Atlanta, on the campus of Emory University, where Patrick Joseph White, 30, of Kennesaw allegedly killed a policeman and seriously shot up the building. Except that. . . the officer he allegedly killed, David Rose, just happened to be an ex-Marine hired a few months before.

Rose, 33, was a former Marine who served in Afghanistan and graduated from the police academy in March and “quickly earned the respect of his colleagues for his dedication, courage and professionalism,” DeKalb County said in a statement.

And Rose is a Jewish name. You will say he is black and so can't be part-Jewish. Boy, are you not keeping up. Regardless, we have the same problem again, since according to Intelius, Instantcheckmate, and Radaris, **there is no David Rose, 33, in all of Georgia.**

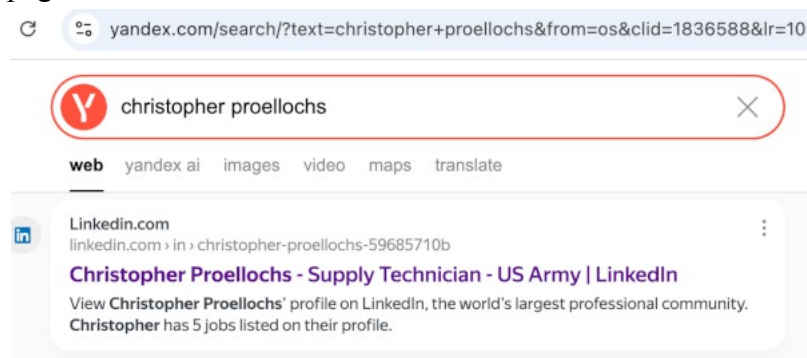

White allegedly did this because he thought he was vaccine injured, so this was obviously dreamed up by Pfizer to blackwash anti-vaxxers. This story just happened to come out right after RFK cut funding for many vaccines. Just a coincidence, I'm sure. And names were released immediately, which was never the case until recently. In real events you don't get details this fast.

The gunman was found on the second floor of a building across the street from the CDC campus and died at the scene, Atlanta Police Chief Darin Schierbaum said. He added Friday that “we do not know at this time whether that was from officers or if it was self-inflicted.”

Ah, so lucky the police chief is Jewish as well. How fortunate! Next we will learn he was related to White and Rose. I hear you laughing or scoffing, but that is what we have found in literally hundreds of previous cases. See the [Uvalde highschool fake](#), as just one of many, where I proved the local players were related to Governor Abbott.

[The NBC article](#) I am quoting from here is by Rebecca Cohen and Phil Helsel. Just another coincidence.

Patrick White is listed, but he is related to Christopher Proellochs, also of the Army, who has recently had his LinkedIn page deleted.

The listing is still up, but not the page. I wonder what his five other jobs are, don't you? According to his Instantcheckmate profile he has been stationed in Alaska and Hawaii.

Proellochs is also a Jewish name, big in watchmaking, by the way, and there is a [Sarah Proellochs as a government agent at Ft. Stewart, Georgia](#). Is she related to these people? Well, yes, since she is related to Christopher.

Sarah Joan Proellochs
RICHMOND HILL, GA

42

Richmond Hill, GA
Kennesaw, GA
Columbus, GA

Christopher Proellochs
Kenneth White
Patty White
Philip White

Also note that she has Kennesaw on her list, which is where Patrick White is from. Richmond Hill is just a few miles away from Ft. Stewart, in case you don't know.

So we have now blown the cover of that one as well. Wasn't hard, as you see.
