

Dolly Parton International Airport?

by Miles Mathis

August 30, 2026

Flags at half mast for Dolly Parton? Dolly Parton International Airport, Nashville? I guess they will have terminal A-cup, terminal B-cup, terminal C-cup, terminal D-cup, terminal DD-cup, terminal E-cup, etc. The jokes write themselves. The writers for late-night will have a bonanza.

Just twenty years later on, and the film *Idiocracy* is no longer a satire, it is a documentary.

I remind you that Dolly became a big Moderna saleswoman during the vaccine genocide, scolding people for not getting jabbed enough to suit her portfolio.

That needle is nowhere near her arm.

Why not rename the whole state of Tennessee Dollyshire? Why not mandate all highschool seniors nationwide take a course on the influence of Dolly on American culture? Why not put her on the dollar bill? Washington? Who? Why not replace the National Anthem with *Islands in the Stream*? Why not puts her breasts on Mount Rushmore? Or even better, rename the Appalachians the Dolly Parton Peaks.

And while we are at it we can rename the Pacific Ocean the FrankBeard Ocean. We can rename the Atlantic Ocean the HaydenPanettiere Ocean. California can be renamed JacktheBaldEagleVille. Lake Superior can be renamed Lake PeaboBryson. The North Sea can be renamed the DavidHockney Sea. The Mariana Trench can be renamed the Alan Greenspan Moat. The Rockies can be renamed the Ted Turner Spine. Canada can be renamed Errol Flynn's End. Texas can be renamed Robert Duvall's BBQ. Mississippi can renamed Jesse Jackson's Barbershop.
