

YOU JUST BOUGHT A HALF BILLION DEADLY VACCINES

by Miles Mathis

First published June 10, 2021

That's right, you, the taxpayer, [just bought 500 million Pfizer vaccines](#), with no representation. Notice that in that announcement from the White House today, there is no mention of who authorized this purchase in your name and with your money. Or, it is implied that President Biden or the White House authorized it. One problem: the President doesn't have the authority to unilaterally spend billions of dollars on a vaccine. According to the Constitution, only Congress has the authority to pass spending bills or "buy things". The President has zero authority to buy things in your name with your money.

Just to remind you, there are only about 330 million people in the US, and about half are refusing the vaccines. So why would our government buy another 500 million? Well, because Pfizer figured if you were going to refuse their vaccine, they would just sell yours to your government anyway and send you the bill for it anyway, to punish you. They would then whitewash that in the media as some sort of gift from you to poor people in other countries. Whether you actually *wish* to give deadly vaccines to poor people is a buried question, one not to be asked.

[In other places](#), we discover this purchase and previous similar purchases of vaccines (including big purchases under Trump) were made through the HHS and the **DoD**. That is, the Department of Defense. Why would vaccines be purchased through the DoD? I can only guess, but probably because the DoD is never audited. The DoD, like the CIA and the Federal Reserve, has *carte blanche* with Congress and can do anything it wants and buy anything it wants, the sky is the limit, no questions asked. Not only does Congress not vote on it, Congress has no oversight. Congress has some pretend oversight on paper, but it never comes to anything. Congress and the GAO have never seriously audited Defense (or CIA or the Fed) and never will.

This should remind you of the way vaccines have been paid for all along. They seem free, since all you have to do is show up. You don't pay Pfizer or Moderna or Johnson and Johnson directly, do you? Normally, when you buy drugs, you have to pay for them. But not this time. The governments of the world seem to be distributing them for free, which makes a lot of people wrongly assume they are free. Some people actually assume Pfizer is donating the vaccines. That is what they want you to think, and this new White House announcement continues that fooling, since the wording is slippery. They talk about donating the vaccines to poor countries. But again, nothing is being donated, unless you want to think of it as *you* donating money to the investors behind Pfizer. All these vaccines are being paid for, and the person paying for them is YOU. That money isn't going into the US treasury, either, to be used for infrastructure. It is going to Pfizer, and into the pockets of its executives and shareholders. And who are these top shareholders? Billionaires like Bill Gates.

What this means is that your money is being spent with no representation. You didn't vote for the DoD, did you? Did you vote for anyone in HHS or NIH or WHO or the CDC? No. Did you vote for Anthony Fauci? Did you vote for Bill Gates? No.

Now, just remind me, isn't this what we allegedly fought the American Revolution over? TAXATION WITHOUT REPRESENTATION? So why aren't any of the outlets reporting this vaccine purchase noticing this? You wouldn't expect mainstream sources like CNN to notice it, since they are just lapdogs of the DoD. Their job is to sell you whatever conjob comes down the pike, reporting it in glowing terms. You are supposed to swell up with pride because your President just bought 500 million vaccines to “donate” to the third world. So generous! But this isn't a donation. Pfizer didn't donate anything, and neither did Biden, the HHS, or the DoD. They just *bought* those vaccines, and you will be getting the bill for them soon. Alternative media are implicitly criticizing the purchase, but they aren't telling you what I am telling you. They aren't asking who authorized this, or noticing that this is all flagrantly illegal and unConstitutional.

Basically, the devils at Pfizer and Moderna and so on are just stealing hundreds of billions of dollars from you for a vaccine that doesn't work. It isn't even a vaccine, since it doesn't provide any immunity. According to their own press releases, the “vaccine” only lessens symptoms. That isn't a vaccine. All these fake new vaccines are **gene therapy**, and don't match the definition of a vaccine, which is an attenuated virus that causes an antibody response. This gene therapy is completely experimental, and has been known to be dangerous for decades. If you have taken this vaccine, you were nothing more than an unwitting human guinea pig. Many have already died and you may die, too.

In fact, this fake vaccine rollout has broken all ten points of the Nuremberg codes that address this. Worldwide, thousands of doctors, scientists, and lawyers who were previously mainstream—including Nobel Laureates—are calling this a crime against humanity, possibly the worst medical crime against humanity in history. Even if the deaths from the vaccines were zero, this would be the worst medical crime against humanity ever, due to all the lies, theft, and damage to society. But as it turns out, the fake vaccine isn't entirely fake, since we are seeing it is harmful and lethal. It is maiming and killing thousands of innocent people, who took it based on colossal lies and huge pressure.

So if you were wondering what all the Covid fakery was about—all the masking, the lockdowns, and the statistics fudging—now you know. It was about prepping the world for this fake vaccine. It was about raping the worldwide treasuries like never before, at levels never before seen or imagined. Tens of trillions are being siphoned out of treasuries, laundered through these fake vaccines and fake stimulus packages, and ultimately ending up in the pockets of the very rich. The very rich are of course invested in the vaccine companies and all the other companies profiting from this manufactured crisis. So this is just another in a series of grand thefts from the taxpayers by the very rich. All the trillions being spent and being put on the Fed's balance sheet will be paid. . . BY YOU. You and you children and grandchildren will be subsidizing the very rich for the next century via this theft.

This is the way the world works. This is the way the world has always worked, but it is getting worse every year. Since 2000, the theft has skyrocketed into the stratosphere, and is now done right out in the open. Almost no effort is made to hide it. The media lies right to your face, treating you like a stupid child, and demands you buy the obvious lies. I suggest you stop. I also suggest you stop letting these people pillage your bank accounts. This has to end and it has to end now.

In previous papers, I have shown you all the serial killers and mass murderers are faked. Those events are all theater and always have been. However, there *are* mass murderers in the world. They are the people running this vaccine crime. And they aren't just killing ten people or a hundred people. They are killings hundreds of thousands for profit, and lying to your face about it on TV everyday. And it isn't just Fauci and Gates and a few bad apples at the top. It is thousands of creepy and evil people pushing forward this project at all levels and in all countries, and doing it with full knowledge—from

the executives at the drug companies, to the government officials, to the people in the media. Why? Because they just don't care. All they care about are their investments, and if mountains of people die, they consider that collateral damage. In fact, they consider it part of the plan: population control. In other words, they couldn't care less that your mother or husband or child died. They don't even care when *their own* family members die. These people would sell their own mothers to the devil for loose change, and some of them probably have. So just remember that when the revolution finally arrives.

No one ever puts these things in the terms they beg to be put. But I do. The time for beating around the bush is over. The time for balanced discussions is over. The time for investigations is over. We don't need any more candy-ass investigations. We need to haul these mass murderers before citizen tribunals and bring the hammer of justice down.
