

In-N-Out Fake

by Miles Mathis

August 3, 2026

Before we get started on this fake, I need to do my reminder to hit the web kitty and donate. I do this only once every three months, as you may know, since I hate advertising and fund drives as much as you do . . . probably more. I don't want to pollute my site with all that. Which doesn't mean I am privately wealthy or subsidized. I'm not. I live alone in a small rental house with my cats and drive an old Subaru, with no savings, retirement, or insurance. I live off art and book sales and website donations. Anyway, all you have to do is click on the webkitty on my homepage or top of my updates page, which will take you to Paypal. If you don't want to do Paypal, you can send a check or other thing of value to me at POBox 335, Garden Valley CA 95633. I thank you in advance for helping keep this research going.

You can tell this mass shooting in Twin Falls, Idaho, is fake just from the date, 8/1, aces and eights, and the photo montage above, can't you? That is the "citizen hero" Jordan Salinas, who allegedly returned fire from gunman Chad Williams. He did not kill Williams, who later shot himself, but he is being hailed as a savior by the international press. He is now saying he had been training for this for years. Right.

Hanging out at local burger joints with his M4 carbines and night vision helmets, just in case. You can't be too careful. And you can't carry too many camo canteens, either. You never know when Burger King or Taco Bell is going to run out of liquids. But he couldn't be military, right?

The first thing I did was look up this guy on the people searches. Radaris has deleted his pages, giving a 404, which is of course highly suspicious, and Instantcheckmate links him only to Hector and

Micheal (sic), but FastPeopleSearch tells us [he is related](#) to [Armstrongs and Schaeffers](#), indicating he is Jewish/Phoenician. One of those people is [James Armstrong](#), currently living in a million-dollar home in SC. He is of-interest since FastPeopleSearch lists 42 residences for him, including American Falls, ID, and Fort Smith, AR (which is Fort Chaffee Base). His LinkedIn page says:

Designer / Marketing Director / Filmmaker / Artist - Over 15 years of experience working directly with fortune 1000 & 2000 companies including Warner Bros. Disney, Kawasaki, Isuzu Motors, Toshiba, National Semi, Coke, Allergan, Medtronic, etc.

He also has some connection to Alla Prima Galleries in Fresno and Jewish artist Daniel Keys. You will say he just took a painting workshop there, [but it says](#)

ALLA PRIMA GALLERY

1105 E Swift Ave Fresno CA 93704

JAMES EDWARD ARMSTRONG

CONTACT

Since April 2002

Jordan Salinas has a brother named [Jacob](#), which I remind you is not a Hispanic name. Neither is Jordan, for that matter. Jacob, 42, has a lot of military locations on his list, including Phoenix and El Paso. Phoenix may link him to fake shooter Chad Williams, who we will look at in a moment. Jacob also has Meridian, ID, on his list. Does that look familiar? It should, since we just saw it two weeks ago in my expose of the fake Scream Killers. They were from Meridian, ID. That's because Meridian is just north of Boise Airport, which doubles as a military base. Just search on "military bases near Boise" at Google Maps, and you get 11 hits on Boise Airport, including Army, Navy, Marines, and Joint Force Headquarters.

Salinas is also closely related to [Danny Schaeffer](#), Past President of the Idaho Association of Highway Districts. Danny is also listed as the Director of Mini-Cassia Christian Church, which turns out to be a big fancy house in a gated residential community on the Snake River. Not sure what that is about, but Jordan Salinas isn't looking like the poor MAGA hick he is being sold as. In fact, in that middle picture under title he looks more Israel Defense Forces IDF than anything, maybe Sayeret.

[**Added later:** Don't know what I mean? Well, they have now released a better photo of him:

Straight out of the Jerusalem Follies. What's on the hat? Gold profile of Ben-Gurion?]

So let's look up the alleged shooter and do the same thing. Chad Williams, 24, turns out to be from Waddell, AZ, not Twin Falls. No previous addresses in Idaho. Living in a \$600,000 home, so probably living with his parents or a trustfund starter home. Waddell is a suburb of Phoenix, of course adjacent to **Luke Air Force Base**. Who would have guessed it? Which reminds us there is a US Army Department Base about five miles from that In-N-Out in Twin Falls. And what is a US Army Department Base? No information comes up on a search for that, but it isn't just an office.

Chad Williams is related to someone named **Zion** Williams, aka Mykel Zion, 24, so that may be an alias. His father is also Chad Williams, 55, of Waddell. His mother is Jeni Avramis, nee **Ross** (Jewish), previously of Fairfax County, VA (CIA) and Ft. Knox. Also related to **Mikoviches, Goldschmidts, Gordons, Bennetts**, and Ruth Stanley. Yes, that was Stanley, as in the Earls of Derby. Ruth is weird since [FastPeopleSearch thinks](#) she is also Barbara, Terry, and Jacqueline. Impossible to find a husband of any of these ladies, since they are all listed as spouses of each other. They also link us to Trottners/Trotters, which name I remind you links us to Brad Pitt, who is a Trotter.

Which takes us nicely into chief witness of this fake event, **Lane Koehn**, who said Williams was “in and out of it.” Always nice to see a joke about a mass shooting from a witness! **Koehn=Kohen**, so we are hitting them all. What are the odds we could find a Kohen in every fake event in history? Pretty good, actually, given what we now know. Now we just need a Stewart.

One of those wounded is given as Terry **Dudley**, a taxi driver who was charging his Tesla taxi nearby.

You see the product placement there? Charming, isn't it? Thanks Elon, you putz! How do you target a guy at a charging station a hundred yards away when you are allegedly shooting people in line at a drive-thru? Or do In-N-Outs now have charging stations in line, for your greater convenience? Dudley is super-scrubbed at FastPeopleSearch, with no age, no relatives, and only a PO box or storage unit. The only one at InstantCheckmate is Terry L. Dudley, 61, related only to Patty Dudley and two **Templetons**. No son Michael Dudley, who made comment in the press. They have no listing for a Michael Dudley related to Terry. Radaris lists him as Terry Lee Dudley, 62, related to Michael and Tricia **Stewart**. So there are our Stewarts! How did I know? Just playing the odds. We also link through the Stewarts to the Stuarts and **Mackeys**, doubling all our bets again. More recently an **Osiris** Dudley has claimed to be Terry's son, which is just a continuation of the joke. Turns out the taxi company is **North Star** Taxi, same joke. Unfortunately, there appears to be no such business. AI tells us the address is **83301** Twin Falls, but that isn't an address, it is a zip code, and of course is aces and eights. MapQuest gives a position that turns out to be [empty fields out in the middle of nowhere](#), with piles of old tires, near Harmony Organic Dairy. No way a taxi service is going to drive in from there, ten miles south of the airport.

Next we find victim Christopher Claunch, 59, of Hagerman, with seven previous addresses in Boise. One of his addresses turns out to be the Hagerman Public Library. Another just happens to be a fancy townhouse in Park Merced, San Francisco, on Acevedo. He is related to a Ramona **Russell**, who lives on a large estate on the Yellowstone River in Livingston, MT.

[This story from the AP](#) claims he was hired two years ago in Rupert, ID, at the Renaissance Ranch Recovery Center as a counsellor for alcoholics, but his twelve addresses show nothing for Rupert. I [checked the roster there](#) and he isn't listed as one of their counsellors. Given this just happened, you would either expect him to still be listed, or for them to have a memorial for him.

That's all interesting because there is a second Christopher Claunch about that age in Boise listed at LinkedIN as a bigshot in IT services and cybersecurity. He is scrubbed at both Radaris and FastPeopleSearch, which is suspicious. InstantCheckmate returns one result for Christopher Claunch of Boise, ID, **not two**.

Not the right person? [Modify Search](#)

NAME	AGE	LOCATION	POSSIBLE RELATIVES
 Christopher Steven Claunch HAGERMAN, ID	59	Hagerman, ID Amarillo, TX Boise, ID San Carlos, CA Ketchum, ID Garden City, ID San Francisco, CA Fullerton, CA	Kimberly Castaneda Christopher Claunch Jody Horton Stacey Roberts Teresa Sperry Jody Hallinen Diane Hogaboam

Verified name match:  Christopher Claunch

[**August 5**: Another victim has now been named, store manager Ashley Garibay:

Ah, another one from the Jerusalem Follies. Garibay is a Jewish name, and [she is related to Abrahams, Ibrahim, Owens, Rubino Armstrong, Nabors and Yartz](#). The computers don't know she moved from Stockton to Twin Falls. Her brother has an address in Boise, so he may be at Mountain Home AFB. Her father may be Edgar Garibay Trevino. Through Eric Abraham we also link to Patricia [Williams](#), 75, of Towson, MD, as well as Chicago, IL. Does that last name look familiar? The shooter is Chad Williams, whose relative Franklin Williams, 66, is from Chicago.

But let's back up. She is related to [Ursula McKinney Armstrong](#), 65, of York, PA, previously of Glen Burnie, MD. We have seen that name, too: "citizen hero" Jordan Salinas is also an Armstrong, remember? So all these actors are related, as usual.]

[Just so you know, I have been experiencing a new phenomenon, where, when I am researching this stuff, my computer screen suddenly goes to black for no reason, then the computer shuts itself off. When I turn it back on, Open Office informs me two people are accessing this document simultaneously. So, as I have said, the spooks know what I am doing as I do it. I don't know why they limit it to these games, since I just continue on as before. I guess they think I will get scared and quit, but I never do. They should know that by now.]

So, you have to wonder if Lynsi Snyder, owner of In-N-Out, was in on this, or if Air Force just ran this on their own bat. I don't know, but it is a question to ask. I would hate to see In-N-Out involved in these fakes like Target and other businesses, but it wouldn't shock me. I respect her for not selling out to Blackrock, refusing franchises and going public, and I pray this isn't a sign of a change. Her current husband is Sean Ellingson, an Army veteran, so there's that. Any information about him is almost impossible to get online, including rank or group (like Special Forces). Truthfinder returns no results

for California. Radaris says the Sean Ellingson married to Synder, previously of La Verne, is living in Rancho Cucamonga in a 1400sqft, \$270,000 house, which can't be right. FastPeopleSearch lists only a PO box. His father appears to be Michael **Castro** Ellingson who has lived in Vacaville. His sister may be Erika **Frank**. But we know he is from money since his younger brother was a Hollywood actor. Two of Sean's brothers, including the actor Evan (*My Sister's Keeper* and *CSI Miami*), died from overdoses.

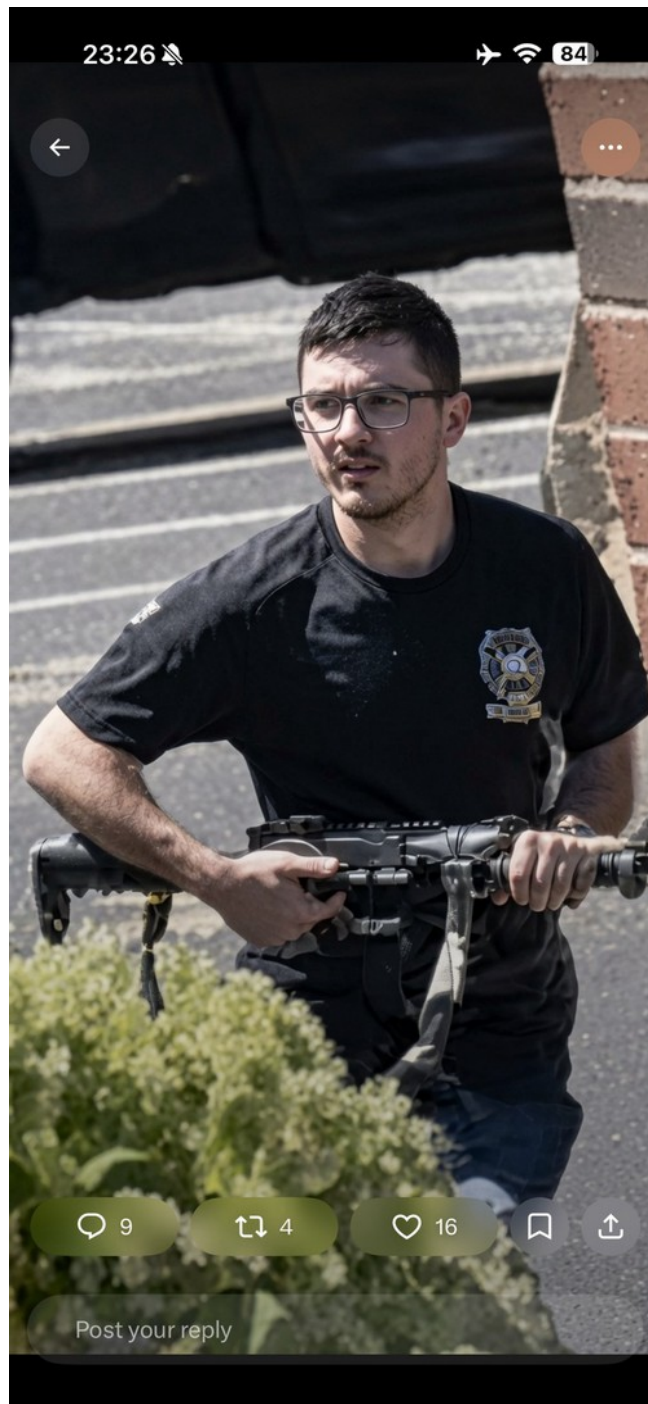

Those are all the brothers, with Evan on the far right. I think Sean is in the middle. The picture wasn't tagged. The ribbons say Hollywood Christmas Parade 2004. So anyway, we have both military and Hollywood connections here. Same as always. The oldest one, Austin, looks like a blond Rob Lowe. Same chin and jawline exactly. The one next to Evan gives me a very young Robert Downey vibe.

A reader informs me those are not the brothers, but the cast of *Complete Savages*. The first guy is not Austin, who died of a heroin overdose, but Erik von Detten, half Jewish, so he may indeed be a cousin of Rob Lowe. Most people in Hollywood are cousins, the only question being how close. Erik is also a Farber, Hubbard, and Nachbaum. The one in the middle is not Sean, but Andrew Eiden. The Robert Downey vibe is Shaun Sipos.

Added August 5: A reader sent in a new picture that has been released of the shooter Chad Williams:

It's AI, isn't it? He only has three fingers on his left hand and the gun is some AR15 that never existed. The positions of both hands makes no sense. And the logo on the shirt is also a tell, since given the resolution of the shirt, we should be able to read the words. But it is just AI gibberish. So Air Force released an enhanced image, to answer that:

But wait, it has changed! The circle has now changed, with points like a badge, and the interior is completely different. And while they were at it, they changed the hand as well, giving him a dirty pinky. So clever of them. They also added a little bit of gun just above his other hand, to answer the claim the gun looked discontinuous. And just to mess with you further, he now has on a watch. They even changed the outside edge of his glasses. Many other details of the gun have also changed, AI basically re-creating the entire thing. It is like one of those games where you spot three differences, except here there are about twenty.
